MR. CHAS. A. ZVOLANEK GREENHOUSES,
BOUND BROOK, NEW JERSEY

TO OUR GROWERS:

AGAIN we have the pleasure of sending you our Winter Flowering Sweet Pea Seed Catalogue, this being our 35th Annual. Practically all varieties here listed are originated with us, and guaranteed as represented.

We specialize only in those and do not waste any time with other flower seeds, as we have our hands full to create the very best for our 20,000 Commercial and Practical Growers, whom we serve with the utmost care.

We never wash our seeds as most seedsmen do, as such seeds loose vitality soon, if not sown at once. Many seed dealers polish any old seeds just to look nice. We have even abolished thrashing our seed by machine, as it takes big force, and such force takes the vitality out of the seeds.

Our seed may not look so good as washed or polished ones but the germinating is usually 50 per cent better.

Warning!

Again, we have received many complaints about Zvolanek's Sweet Peas, but as usual, all such complaints should be sent to another firm, with identical name and address.

Remember the Ant. C. Zvolanek and Son, serving now over 35 years. All our seed packets must have our "Trade Mark" as on the front page, otherwise the seed is not genuine.

I wish to thank all our growers for their patronage the past 35 years, and hope to be able to serve you for many years to come.

Yours truly,

ANTON C. ZVOLANEK,
Originator of Winter Flowering Sweet Peas.

FEW OF STACKS OF UNSOLICITED LETTERS

Cambridge, Ohio, Feb. 18th, 1931.

Like many others, we ordered from the wrong firm last year a few days ago we saw some of yours at Endres, at New Philadelphia, Ohio. So please send us the Big "15."

J. A. T.

Portland, Ore., Nov. 5th, 1930.

Last year we sent our order to W. Z. & Co. and they bloomed too late. . . . Big loss to us. E. G.

Yokohoma, China, Jan. 17th, 1931.

I thank you very much for your favor, Orchid Sweet Peas. They were perfect germination, and now my greenhouses are covered with flowers. T. Y.

Scharbentz, Germany, July, 17th, 1930.

Your Sweet Peas Seed again gave me this year great satisfaction. G. K.

Frankford, Ind. July 25th, 1930.

I bought the Big "15" collection of Sweet Pea Seed and they were very satisfactory. G. C. S.

Erie, Pa., Oct. 8th, 1930.

The Seed sure has life in it. I think every seed germinated and came even. A. J. R.

Los Angeles, Calif., Sept. 30th, 1930.

Last year I ordered 17 varieties . . . and I am glad to report the wonderful success that we were able to secure by carefully following your directions in planting and care. We had the most beautiful Sweet Peas in this part of California last year; and one of the purchasers of land, wants to plant a half acre for Commercial purposes, and I am anxious that he shall use your seed. Mrs. H. G. H.

Pawhuska, Okla., Sept. 9th, 1930.

We certainly were proud of our Sweet Peas last year. They had wonderful long stems.

We always use your seed, and find them very successful.

R. F.

Novelties

This year we are proud to be able to introduce several real novelties, which we believe will be taken notice of and will remain as commercial varieties for many years.

ZVOL. MISS PENNSYLVANIA—Bright Scarlet, without any blue traces, does not burn, largest size, long stems, which will discard any red variety in existence. This is the No. 99 which we have sent out for trials.

ZVOL. MISS WISCONSIN—Orange Salmon, medium flower but very long stem and one of the freest early bloomer. Covered always with mass of flowers. Sampled under No. 333.

ZVOL. MISS DELAWARE—Mammoth clear salmon free bloomer. Everyone who received a sample recommended it. Sampled under No. 93.

ZVOL. CHERRY RED—One of the earliest bloomers, all double, either double standard or wings. Older the plants the better and more flowers they produce. It is the sister of our Miss Canada.

Price of each: 1 oz. \$6.00; 1 lb. \$30.00
1 Pkt. each \$2.00; All 1 Pkt. each \$8.00

COLLECTION OF BIG 15 EXHIBITION WINTER SWEET PEAS

Our intention is to reduce our list of Winter Sweet Peas to 25 or 30 varieties in the next few years. To introduce the cream of our Sweet Peas, which we think are the best in the world, we have put up a Limited Collection of the best straight varieties. Many of them are Novelties under number only. Each packet of different color, contains sufficient seed for at least a 35 ft. row. These Collections are just suitable for the retail grower, private gardener, or as experiment for the largest commercial growers.

Ant. C. Zvolanek's Big 15 Commercial or Exhibition \$10.00 net

(Sold to commercial or practical gardeners only.)

We believe that these collections are the best obtainable. After you see them in bloom and if you should not be satisfied, tell us frankly and we will gladly refund your money.

Each year we are selling many hundreds of this collection, and no kick. Many have recommended such splendid lot.

New Semi-Cupids or Baby Dwarf Winter Sweet Peas

This type of Sweet Pea grows only about 16 ins. high, producing a mass of flowers of big size. Do not need any supports, and can be grown either as pot plants for Xmas or Easter, or as cut flowers for funeral work where short stems can be used. It is also excellent for out of door planting as a border, blooming practically all summer or winter when climate permits

Standard Early Varieties

Pink

- MISS CALIFORNIA**—Bright large pink with slightly carmine touch, the form and color is better than Miss Gude. Long Stems. 1 oz. \$2.00; 4 oz. \$6.00; 1 lb. \$15.00
- ZVOL. MISS MAINE**—Clear carmine pink, very large well formed flowers, wide apart, longest stem and big bloomer. 1 oz. 2\$.00; 4 oz. \$6.00; 1 lb. \$15.00
- MISS TEXAS**—Fiery dark rose with orange touch, between our Perfection and Beauty. Long stems, flowers wide apart. 1 oz. \$2.00; 4 oz. \$6.00; 1 lb. \$15.00
- MISS SEATTLE**—Very light clear pink, with slight salmon impression. 1 oz. \$2.00; 4 oz. \$6.00
- MISS GEORGIA**—Daybreak pink, marked darker pink on bases. One of the largest varieties. 1 oz. \$2.00; 4 oz. \$6.00
- ZVOLANEK'S MRS. DAISY CLUFF**—Mammoth light pink by opening, turning darker when full open. It is even larger, with more substance than Zvolanek's Empress, with long stem. First class for green houses or outdoors. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. MRS. H. R. HOLSCHER**—Clear pink, very large and robust grower. I have seen these in full bloom in eastern greenhouses from November until late in spring. Also one of the best for outdoors. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- MAJESTIC**—Very similar to our Mrs. Holscher. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. MISS CANADA**—Light pink, every flower coming with double standard or wings or both. Large flower and long stems. Begins to bloom 3 weeks earlier than any other Sweet Peas, when only 18 ins. high, with 2 flowers but after it is 5 ft. high, is covered with a mass of flowers with all 4s, lasting longer than any other. We believe this type will be the best for dark winter months. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. OTTAWA**—Dark rose, same color as our perfection. This is practically the same and double flowering as Miss Canada in every respect only the color.. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOLANEK'S EMPRESS**—A light pink, one of the largest mammoth Sweet Peas, even larger than Zvol. Rose, with long stems. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S CHICAGO PINK**—A bright pink with a pleasing salmon touch, long stems. It has proven to be a first class commercial variety for wholesale market. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S ROSE**—This is the Queen of all Rose Peas. For many years it has reigned with its dominating color, of unusually large size, shape and productiveness. Many seed dealers advertising this variety, some even as Improved Zvol. Rose, but if not grown by us, it is only a pink mixture, because if not kept in full control it reverts in short time like any other Winter Sweet Peas. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S PINK**—Practically the same as our Rose, only one shade darker and earlier bloomer, and brilliant by artificial light. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S PERFECTION**—A mammoth dark rose. All year round variety in winter or outdoors. One of the best in the Pacific and Gulf states. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S AMBEROSE**—Very large, rich pink underlaid with amber, very long stem. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S SUNBEAM**—Large light pink, long stems and good producer. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00

- ZVOLANEK'S MISS LOISE GUDE**—Large shell pink, Old favorite with growers. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- ZVOLANEK'S BEAUTY**—Clear fiery dark rose, flowers wide apart, long stems. An old favorite with greenhouse men. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- ZVOLANEK'S MRS. A. SKACH**—Clear pink, over twenty years standing. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- ZVOLANEK'S MRS. SIM ORCHID**—Light pink, an old time favorite. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- ROSE QUEEN**—Very near as Mrs. Sim Orchid. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- JEANE MAMITSCH**—Light pink, larger than Rose Queen. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00
- SUPERIOR PINK**—Dark pink and pleasing color. 1 oz. 50c; 4 oz. \$1.75; 1 lb. \$5.00

Ask for Special Prices on 5, 25 and 100 lb. Lots.

Salmon and Orange Colors

- ZVOL. MISS OREGON**—Clear salmon pink, larger than our Princess, producing profusion of flowers from Nov. all winter, and one of the best outdoor variety. 1 oz. \$2.00; 4 oz. \$6.00; 1 lb. \$15.00
- ZVOL. MISS AMY DU PONT**—Large light salmon pink. Long stem, perfect built flower, has proved to be first class commercial variety for greenhouses and outdoors. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. MISS ALICE M. RAINFORD**—Dark salmon with cream touch, very wavy, much substance. Miss Rainford, who is long lived florist in San Diego, thinks this is the best Sweet Pea in this color. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. MISS FLORIDA**—Large fiery orange, extremely long stems, good producer under glass and outdoors. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. MRS. FRANK PICKARD**—Light salmon pink, large flowers, long stems; first class greenhouse variety. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. NEW JERSEY**—Orange red, medium, but larger and brighter than Eldorado; does not burn, and we recommend it for greenhouse culture in midwinter. Very early bloomer. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- VALENCIA**—Exact duplicate of our New Jersey. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOL. LOUISIANA**—Very pleasing large orange salmon, long stems. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$10.00
- ZVOLANEK'S PRINCESS**—Bright light salmon of immense size, does not fade but improves in color. One of the best producers from Nov. until spring. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S SANTA BARBARA**—A mammoth dark orange red, long stems, well built flowers and good producer. 1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S EXQUISITE**—Dark salmon pink with a touch of orange, giving the flower a lively appearance. Large size, long stem and 100 per cent true. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S SWEETHEART**—A dark salmon, slightly touched with orange; giant size, good stems and most true now. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ELDORADO**—Orange salmon; darker than Mrs. Kerr, but much larger and better. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S ORANGE**—Fiery scarlet orange; very long stems and for the last 15 years most widely grown commercial orange. 1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00

- ZVOLANEK'S MISS YNES GILBERT**—A begonia salmon.
1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- BURPEE'S ORANGE**—Glistening orange; must be shaded to avoid burning.
1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- MRS. KERR**—Rich salmon of fine color, but must be shaded.
1 oz. 50c; 4 oz. \$1.25; 1 lb. \$5.00

Special prices on 5, 25 and 100 lb. Lots.

Lavenders

- ZVOLANEK'S MICHIGAN**—A mammoth, darker, pure lavender with long stems and excellent producer. Introduced only few years ago. We are getting repeated larger orders each year from all commercial growers.
1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S BOSTON**—Is practically the same mammoth beautiful shape, only several shades lighter and earlier. One of the best lavender under glass, being loaded with flowers from November.
1 oz. \$1.00; 4 oz. \$3.00; 1 lb. \$8.00
- ZVOLANEK'S PHILADELPHIA**—A fine large clear lavender that has a tendency to bloom a week in advance of all others, and a great producer, much better than Harmony. It is the favorite with greenhouse men.
1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ED ZVOLANEK**—Well known extra large commercial market lavender; many double and mostly with four flowers.
1 oz. 75c; 4 oz. \$2.00; 1 lb. \$6.00
- ZVOLANEK'S LAVENDER**—Well known and largely grown by many market growers on account of productiveness and pleasing color.

Mixed Sweet Peas

The past few years we have had a big call on early-flowering out-door MIXTURE, especially from florists who sell seed as a seed line to their clients. Our Mixture cannot be duplicated anywhere. We are using only the best of the largest varieties, and for the convenience of florists we are raising several kinds.

ZVOLANEK'S GRAND MIXTURE—One row of this mixture is a revelation in a garden row. It consists of all the best colors properly graded and at least 150 varieties, including many novelties never seen before. Any retail florist should have a quantity on hand to please their customers.

LAVENDER MIXTURE—The best lavender and light blue.

WHITE MIXTURE—White and black seeded.

PINK MIXTURE—All best pinks from lightest to darkest color.

SALMON MIXTURE

Price on any mixture: 1 oz. 40c; 8 oz. \$2.00; 1 lb. \$3.50; 5 lbs. \$15.00.

Special Prices on 50, 100 and 500 lb. Lots.

We do not sell less than one ounce of each variety. If you wish to have more colors, better order any mixture.

WARRANTY

All varieties in this list are true and fixed as represented. Should any mistake occur by us, we will return the full amount paid for the seed or replace the same, but we will not be responsible for a failure caused by climatic conditions or neglect of the grower. We are interested in your Sweet Peas, even after the seed has germinated, and any questions will be cheerfully answered.

Most of the commercial varieties will be ready to ship about the middle of July. Please send your order early. We are usually sold out early each year, and perhaps of such varieties as you may need. In case of shortage or failure of crop we will take the liberty of substituting with the best and nearest color, as this list is made out just before the harvest, and we are not yet certain about the crop. If no substitute is wanted mark your order **"No Substitute."**

SHORT CULTURE ON SWEET PEA

HOW TO START THE SEED:

Every year I personally visit many old Sweet Pea growers who all agree that to get the best results the seed should be soaked in water for 6 to 10 hours, and such seed that have not swelled up must be chipped or filed and dropped back in water until swelled up.

Some varieties like **Xmas Triumph** and several lavender varieties have very hard shell and must be soaked longer in water.

You will find also many seeds which will not respond so quickly. Such seed has either been just hand picked or has ripened during a very hot spell, and all these must be helped by chipping the skin.

1. Any soil is good for Sweet Peas except heavy clay or too much sand.
2. Work the soil at least 18 inches deep, 2 feet is better, with plenty of rotten stable manure. Cow manure is best, use some lime and crushed bone.
3. Tramp the soil down firm; never plant in loose soil.
4. Take the hose and water down to the base. Let stand a few days until moderately moist.

NEVER PUT SEED IN TOO WET SOIL.

5. Rake off the surface nice and smooth, make rows and drop seed not over two inches deep, and two inches apart. Rake off again. **DO NOT WATER UNTIL ALL THE SEED IS UP AT LEAST HALF AN INCH OUT OF THE SOIL.** (Nine tenths of the failures are caused by watering too soon.) When the seed is all up give a good soaking about once a week. It is better to keep moisture below than on top. Do not plant Sweet Pea seed when the weather is too hot, shade the glass first.
6. When all the seed is up, thin to at least 6 inches apart, if outdoors, cover the rows with old strips of wire netting to protect the young plants from birds. All birds like the tender young sweet pea shoots when just out of the ground.
7. Look from the start for Green Aphis. They are the greatest enemy. When you discover any, take the spray gun at once, load it with one part of 40 per cent nicotine and 400 parts of water, if the Sweet Peas are outdoors, in the greenhouse 1 to 600 will do if you spray them in time, or use Nico Dust 6 per cent. Shoot any black birds that are around your Sweet Peas. They do not pick on the Aphis as many people think, but they feed most exclusively on the lady bugs, who are the greatest exterminator of Aphis. Protect all frogs, they feed only on insects. Build them little water ponds where they will propagate quickly and they keep your garden free of insects.
8. Give the young plants good substantial supports so that they can climb from the start and have a chance to produce nice straight flowering stems. Crooked stem flowers are worthless.
9. When the plants begin to bloom give them liquid manure water often, it will produce 100 per cent better flowers. Cow manure or a weak sheep manure solution is the best.
10. Pick daily, even the poorest flowers; it will lengthen the flowering season. Always keep the surface earth loose to about two inches. Never allow any crust to form on top.

Dropping the Buds

In the northern and eastern states, dropping off buds during November and December is common, but a great deal of this can be prevented. We all know that Sweet Peas like plenty of moisture to get long stems, but during the cloudy weather in November and December it is better to sacrifice the long stem for good flowers. As soon as the moist and cloudy weather the latter part of October sets in, keep the green houses dry as possible, even when the soil is dry three to four inches on the surface. Keep the ventilator open even during the night as much as possible and during frosty nights turn the heating pipes on so there is plenty of dry air circulating.

Should you find a few spots which need some water, water only between the rows in ditches and away from the plants, so they get the moisture from underneath. This will save you at least fifty per cent of the flowers.
